PUBLICATIONS RECEIVED DURING JANUARY-FEBRUARY

BULLETIN OF THE MONTH

Lawn diseases: How to control them
Home and Garden Bulletin No. 61

This revised bulletin consolidates information on lawn diseases and gives latest information on use of pesticides and herbicides. The most common and widespread diseases are discussed; diseases that occur sporadically or in isolated areas are not included. The color illustrations will aid the reader in quick identification of the diseases.

FARMERS' BULLETINS

Commercial blueberry growing. (F 2254) 30 p. 35¢.

This bulletin discusses the important varieties of blueberries and the culture of rabbiteye and high bush varieties. Soil and climate requirements, propagation, mulching, and pruning are among the items discussed. Also includes sections on how to control pests and describes diseases that attack the blueberry plant.

Building a pond. (F 2256) 13 p. 25¢.

This bulletin may help a landowner to decide whether a pond is the answer to his water supply problem. It discusses various uses for a pond—including livestock watering, irrigation and spraying, fish production, fire protection, recreation, waterfowl and other wildlife habitat, and multiple uses—

and how a pond can be built and maintained.

HOME AND GARDEN BULLETINS

Lawn diseases: How to control them. (G 61) 14 p. 35¢.

See Bulletin of the Month.

Como servirse de los grados del USDA al comprar los comestibles. (G 196-S) Folder 25¢.

This bulletin, in Spanish, explains how USDA grades can help the shopper in judging the quality of foods. Besides serving as measures of quality, the grades provide assurance that the foods are clean and wholesome. The bulletin describes and illustrates various grade marks used for dairy products, poultry, fruits and vegetables, eggs, and meat.

Aim, action, achievement. (Color, TV, 14½ minutes).

Forty years ago, a vast earth slide occurred on the Teton National Forest in Wyoming. The "Gros Ventre" slide, rich in geological interest, has been set aside by the Forest Service for study and enjoyment. In a cooperative venture with the Forest Service, YWCA teenagers came from all over the U.S. to construct a foot-trail across the

slide. Now, visitors can get a closer look at this wonder of nature. (1968).

All weather wood foundation. (Color, TV, 10 minutes).

This film shows the actual construction of a house using a treated wood foundation and the advantages that accrue from this technique. Produced in cooperation with the National Forest Products Association and American Wood Preservers Institute. (1972).

Certain distance, A (Color, TV, 29 minutes).

Describes the activities of the Forest Service's remote sensing project based in Berkeley, California. Aerial photographs in normal color and infra red color and thermal sensors are used to detect forest and range problems from the air. The film covers bark beetle damage in South Dakota, range inventory in Colorado, smog damage to forests in California, and Forest inventory in the Mississippi Valley using initial photos from the Apollo IX space orbit. The film can also be useful in a general introduction to the subject of remote sensing from airplanes. (1970).

Mud (Color, 20 minutes).

Shows the gullying erosion and destructive lake siltation caused by careless builders and how these problems can be solved by simple erosion control procedures and devices. The fundamental techniques that have worked for years in rural and agricultural areas can save money for developers and conserve natural resources. (Cooperatively produced by Stuart Finley). (1969).

Woodland, The (Color, TV, 12¼ minutes).

Explains how most woodland wildflowers appear and bloom in early spring. Many of these plants appear above ground only briefly—long enough to flower and produce underground food reserves.

SLIDE SETS AND FILMSTRIPS

The following materials are available by purchase only. Purchase slide sets from Photography Division, Office of Communication, U.S. Department of Agriculture, Washington, D.C. 20250. Order filmstrips from Photo Lab, Inc., 3825 Georgia Ave., N.W., Washington,

Note: Single copies of publications other than those listed **FOR SALE ONLY** may be obtained free as long as the supply permits from the Office of Communication, U.S. Department of Agriculture, Washington, D.C. 20250. Prices are given for the convenience of persons desiring to purchase these publications in quantities and for those who make frequent purchases of government publications. All remittances should be sent to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

ORDER BLANK. Detach and return to Office of Communication, U.S. Department of Agriculture, Washington, D.C. 20250. Write or print name and address plainly on the other side. Order not more than 10 publications.

D.C. 20011. Narrative guides for lecture notes accompany each.

Pitch in for a cleaner community.
C-165. Released 1974. 103 frames. Slide set \$21.50. Filmstrip \$15.00. Price includes cassette.

The Dixon Hubbard family wakes up one morning to the realization that their home and yard are getting run down. They fix things up and then extend their campaign to their community. It's designed to stimulate groups into developing similar campaigns in their neighborhoods.

The food stamp program and you.
C-193. Released 1973. 61 frames. Slide set \$18.50. Filmstrip \$10.50. Price includes cassette.

Explains to people who want to participate in the Food Stamp Program what requirements they have to meet to become eligible, where to buy food stamps, and how to spend them.

Fuel for food. C-196. Released 1974. 94 frames. Slide set \$25.00. Filmstrip \$11.50. Price includes cassette.

This presentation explains why the food producers fuel needs are so critical. Designed to help people under-

stand why the farmer must be first in line at the fuel pump.

Forests for all. C-149. Released 1968. 60 frames. Slide set \$14.00. Filmstrip \$6.50.

Adapted from a presentation by the Chief of the Forest Service, U.S. Department of Agriculture, at the 58th Western Forestry Conference, Seattle, Washington. The set explains that with wise use of our forest resources we can use them and conserve them for the future as well.

Our National Forests. C-127. Released 1966. 41 frames. Slide set \$13.00. Filmstrip \$5.50.

The multiple uses of the National Forests are spelled out in this pleasing show which is suitable for all age groups, but of special interest to school children. It tells about the big woods and the animals and activities found there.

Sharing our land with wildlife. C-177. Released 1970. 58 frames. Slide set \$14.00. Filmstrip \$6.50.

Shows how soil and water conservation measures benefit wildlife on 60 percent of the land area in the United States.

MAY 1974

PUBLICATIONS RECEIVED DURING MARCH-APRIL

BULLETIN OF THE MONTH

Your money's worth in foods
Home and Garden Bulletin No. 183

This revised bulletin provides the homemaker with basic information essential to planning and purchasing food for good nutrition. It tells how to plan well-balanced meals within various food budgets and suggests reasonable amounts to spend for food. The bulletin also provides meal planning guides, food shopping tips, and tools for comparing costs of food.

FARMERS' BULLETINS

Father-son agreements for operating farms. (F 2179) 18 p. 30¢.

This slightly revised bulletin describes the kinds of agreements that father and sons can make for operating farms—project, enterprise, wage and income-sharing and joint-operation agreements. It discusses the factors that should be considered and decisions that should be made before an agreement is drawn up. It also tells how to draw up the agreement and explains some of the tax considerations.

HOME AND GARDEN BULLETINS

Ants in the home and garden: How to control them. (G 28) 8 p. 25¢.

This revision tells how to locate the ant nest—the first step in the control of ants in the home, in lawns, and in gardens. Next, it explains how to get rid of infestations by the proper ap-

plication of chlordane and other insecticides. Finally, it explains precautions that should be taken in the handling of insecticides.

Protecting home-cured meat from insects. (G 109) 6 p. 25¢.

This revised bulletin describes insects that commonly attack home-cured meat, and it tells how they may be controlled. The insects discussed are cheese skippers, mites, red-legged ham beetles, and larder beetles. The bulletin describes preventive measures that will control the insects and mites and lists precautions in the use of insecticides.

Lamb in family meals: A guide for consumers. (G 124) 21 p. 30¢.

Once a seasonal meat served chiefly in spring, juicy and flavorful lamb is now available throughout the year. Lamb, like other meats, is rich in essential body-building protein, in iron,

3

and in the B vitamins. This revision provides consumers with tips on selecting quality lamb, help in estimating how much lamb to buy to feed a family, a guide to storing lamb, directions and timetables for cooking lamb, and main dish recipes featuring lamb. The bulletin also contains illustrations to help consumers identify lamb cuts they are likely to find in retail markets.

Your money's worth in foods. (G 183) 28 p. 50¢.

See Bulletin of the Month.

LEAFLETS

The fowl tick: How to control it. (L 382) Folder. 25¢.

This publication describes the fowl tick (also called the bluebug or chicken tick), which injures poultry by sucking blood. It prefers chickens, but also attacks other poultry, chiefly turkeys, and occurs mostly in southern States. Heavy infestations can kill fowl. The leaflet explains identification, and gives control methods by the use of insecticides, sanitation, and management.

Growing black walnuts for home use. (L 525) 9 p. 25¢.

This leaflet describes improved varieties of black walnut trees, and discusses when, where, and how to plant them, how to space and care for them, how to improve the soil, and instructions on how to harvest the nuts. The discussion includes the control of diseases and insects.

AGRICULTURAL ECONOMIC REPORTS

Farmland tenure patterns in the United States. (AER 249) 46 p. 85¢.

Farming in the city's shadow. (AER 250) 13 p. 35¢.

Income of farm wageworker households in 1971. (AER 251) 50 p.

U.S. peach industry. Part 2. An inter-regional competitive model for canned peaches. (AER 253 Part 2) 32 p.

AGRICULTURE INFORMATION BULLETINS

Fats in food and diet. (AB 361) 10 p. 25¢. FOR SALE ONLY.

Science for living: A report on progress from agricultural research. (AB 363) 68 p. \$1.45. FOR SALE ONLY.

Cooking for small groups. (AB 370) 22 p. 30¢.

AGRICULTURE HANDBOOKS

Guidelines for the chemical control of plant diseases and nematodes. (AH

378) 3.11.1 p. Subscription Only. \$13.00 Domestic, \$16.25 Foreign. Subscribers to this handbook will receive the updated pages as they are printed. FOR SALE ONLY.

Sources and management of microorganisms for the development of a fermentation industry. (AH 440) 38 p. 60¢. FOR SALE ONLY.

Growing sour cherries. (AH 451) 36 p. 40¢. FOR SALE ONLY.

The principal laws relating to Forest Service activities. (AH 453) 265 p. \$2.35. FOR SALE ONLY.

Potatoes and sweetpotatoes: Usual dates for planting, harvesting, marketing. (AH 460) 19 p. 30¢.

MARKETING RESEARCH REPORTS

A dairy products distribution facility: Layout and operating methods. (MRR 990) 13 p. 30¢. FOR SALE ONLY.

Standardization of shipping containers for fresh fruits and vegetables. (MRR 991) 118 p. \$1.45. FOR SALE ONLY.

MISCELLANEOUS PUBLICATIONS

Agriculture in the United States and the People's Republic of China, 1967-71. (FAER 94) 39 p.

Elm sawfly. (FPL 142) 6 p. 25¢. FOR SALE ONLY.

Plant morphogenesis as the basis for scientific management of range resources: Proceedings of the workshop of the United States-Australia Rangelands Panel, Berkeley, Calif., March 29-April 5, 1971. (M 1271) 232 p. \$2.30. FOR SALE ONLY.

Product examination service—Reports on the condition of meat. (MB 55) Folder. 25¢.

Poultry and egg statistics through 1972. (SB 525) 61 p. \$1.05.

Poultry market statistics, 1973: Annual summary. (SB 527) 53 p.

Index-Catalogue of medical and veterinary zoology: Special Publication No. 3. Ticks and Tickborne diseases. I. Genera and species of ticks. Part 1. Genera A-G. 429 p.

SLIDE SETS AND FILMSTRIPS

The following materials are available by purchase only. Purchase slide sets from Photography Division, Office of Communication, U.S. Department of Agriculture, Washington, D.C. 20250. Order filmstrips from Photo Lab, Inc., 3825 Georgia Ave., N.W., Washington, D.C. 20011. Narrative guides for lecture notes accompany each.

Trends in agriculture and related subjects. A-55. Released 1973. 186 frames. \$25.00.

One hundred and eighty-six self-explanatory color slides from charts and graphs developed by the U.S. Department of Agriculture for its annual Agricultural Outlook Conference. Include them in any talk you give about agriculture, population and rural development, today's family, food prices, medical care prices, children's clothing budgets, foreign policy and trade, or the domestic situation—such as land and its use, marketing developments, and farm inputs, outputs, and costs.

The peaceful revolutionists. C-191. Released 1973. 195 frames. Slide set \$50.00. Filmstrip \$20.00. Price includes cassette.

Discusses food prices, living standards, and tells what took place in agriculture and related fields over the past 25 years to produce a revolution that has freed the American public from the need to grow its own food.

What's happening to food prices? C-192. Released 1973. 153 frames. Slide set \$35.00. Filmstrip \$15.00. Price includes cassette.

This presentation gives detailed insight into the situations that have led to the current high food prices.

Selecting and buying food for the young family. C-121. Released 1966. 36 frames. Slide set \$13.00. Filmstrip \$5.50.

A guide to a homemaker in deciding how to serve the most nourishing meals to her family. It also gives helpful hints on how to economize on the family budget while shopping for groceries.

MOTION PICTURES

For purchase information write to the Motion Picture Service, Office of Communication, U.S. Department of Agriculture, Washington, D.C. 20250.

The big gamble. B/w. Released 1953. TV. 15¼ minutes.

A dramatic picture showing the farmer's struggle against the forces of nature in the production of crops and how the Federal All-Risk Crop Insurance program eases the financial burden when crop failure strikes. This picture will appeal to all groups—city dwellers and farmers alike.
